

Develop your website's versatility and performance - for just £15 per month (exc. VAT)

BT Advanced Web Hosting is designed to boost the effectiveness of your company's website

Would you like to enhance the design and capabilities of your website? Does it need to be larger, more accessible, more dynamic, more interactive or more secure? With BT Advanced Web Hosting, you can develop a very powerful website that meets your particular requirements and can cater for thousands of visitors every week.

BT Advanced Web Hosting comes with a full range of simple to use 'drag and drop' tools and supports the vast majority of programming languages and databases (see the Product Features table¹ for details). It is therefore ideal for both fully customised and DIY websites, and includes a complete suite of performance-enhancing applications - all for just £15 per month² (plus VAT). That's a relatively small cost for a highly flexible service!

Benefits for your business

Greater functionality - BT Advanced Web Hosting comes with 3GB of storage and a wide range of exciting features that are sophisticated and yet easy to use.

Improved reliability - If you've been frustrated by the instability of your hosting solution, you can now breathe more easily: BT's solutions offer 99.8%, with 24/7 availability.

Increased versatility - Two domain names are included in the price, and you can transfer in existing domain names at no extra cost. Our fixed price, one off, Web consultancy services can also help you to customise your site to meet your specific needs.

Enhanced capabilities - With BT Advanced Web Hosting, you can use most Windows developer tools and run databases such as MySQL (see Product Features table¹).

Greater peace of mind - BT's solution also offers advanced security and a site restore function.

More power - Through more web space; and a huge 160GB transfer allowance that can support millions of visitors.

Features

- **Two business domain names** - including a 'mycompany.com' address.³
- **A total of twenty POP3 Hosted Microsoft Exchange email accounts** - to boost communications with clients. These can be assigned your domain name, to give you a professional 'Yourname@mycompany.com' email address.
- **3,000MB of web space⁴** - sufficient to support thousands of pages/ images.
- **Easy-Site Wizard Pro** - A state-of-the-art website building application.
- **Online product catalogue** - so that you can promote your products and services clearly and professionally.
- **DIY basic store builder** - with support for credit card processing.
- **Support for most programming languages** - such as MySQL, ASP, ColdFusion, and video streaming.
- **Search engine optimisation tool** - so that leading engines can find your site more easily, and move it up the all-important natural search list.
- **Comprehensive reporting tools** - if you can't measure it, you can't manage it - so it's essential to keep in touch with your site's performance.
- **Interactive facilities** - the package includes customer live chat, Appointment Scheduler, Guest Book and Weblog, to provide two-way communications with a customer.

The creation of a powerful and dynamic website requires powerful and dynamic tools. That's why your company could benefit from BT Advanced Web Hosting. It enables you to develop a high-performance site which has a very professional appearance. This could transform your business by boosting your ability to promote your products and services to a worldwide audience.
