

Accessories

Belt Clip

The belt clip makes it easy to keep your KIRK handset with you when you are on the move. It attaches to a belt or a pocket etc. The handset fits to the belt clip, with a specially designed connector. It can be used with the safety line.

Safety Line

If you drop your KIRK handset the safety line stops your handset hitting the floor or being lost. The clip design allows it to be used with the belt clip.

Charger

The KIRK desktop multi-charger will charge four 4000 series handsets. Its is robust but stylish and will blend with any work environment.

Leather Cases

Leather cases protect your KIRK handset from scratches, shocks and dust. The transparent window allows the handset to be used whilst in the case. A swivel and fixed belt clip version is available. Both cases fit the 3000 and 4000 series handsets.

Swivel Clip

Fixed Clip

Rugged Phone Holder

The rugged phone holder for the KIRK 4000 or 3000 handsets makes the handsets even harder to break. It has a fixed clip, access hole for a hands free headphone, and buttons for volume and alarm operation.

Accessories

Headsets

When you wish to use both hands and answer your telephone at the same time a headset is necessary.

The Plantronics headset is of lightweight construction and features background noise suppression, an adjustable earhook, and a boom-mounted microphone which can be positioned for optimum performance.

The headsets can be changed from earhook to headband fixture are available unswitched or with an on/off hook switch.

**Unswitched headset
(Headband option)**

**Switched headset
(Earhook option)**

High Noise Environment Headset

The Hurricane headset delivers the performance of a heavy-duty headset in a high noise environment without the weight and bulk. The dual ear loops come with noise attenuating plugs which have an NRR rating of 21dB.

The headset can be converted for use in a low noise environment by switching out the ear tips. Recommended for high noise environments where a lightweight headset is required.

4000 PC Interface Cable

Enables easy phone book management via a PC interface (not shown).
